Microsoft IT Academy Program

Helping students become choice of employers by achieving industry recognized skills and certifications on the latest technology.

Microsoft IT Academy connects students, teachers, employers and local communities through leading edge technology skills development. Microsoft IT Academy provides resources that benefit all students. Acquiring skills on the latest technologies helps students to become better collaborators, communicators, critical thinkers, innovators, problem solvers and citizens of our global economy. Studies suggest that over the next four years, IT employment will rise by 5.8 million jobs and 51% of all IT jobs will be software-related, creating 75,000 new businesses.¹

By adding Microsoft Certifications to your Microsoft IT Academy subscription, you can get a complete technology education solution to not only train but also certify your students and thereby enhance their education and career prospects.

Microsoft IT Academy: the complete technology education solution.

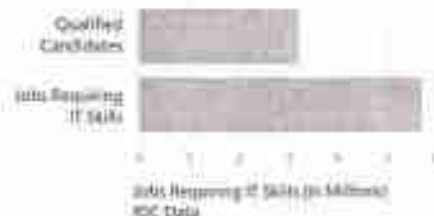

The program has been developed to bridge the gap between education and the real-world (industry) by empowering students with the IT skills they'll need for a successful career in today's technology centered job market. The program also enables educators by providing the professional development resources they need to be successful in the classroom.

Eligibility: All primary, secondary, post-secondary, preparatory schools, vocational and trade or technical accredited educational institutions, libraries, museums and accredited sources of continuing education and those qualifying for Microsoft Volume Licensing academic agreements.
