About the School

Physiotherapy education is designed to serve the needs of a paramedical vocation established within a biomedical paradigm. Today physiotherapy has achieved an autonomous professional status in many countries. Physiotherapy, a dynamic science, is an integral part of Modern Scientific Medicine. It is a drugless therapy and has a major role in prevention and medical rehabilitation of the physically handicapped. The profession is receptive to change and welcomes the increasing focus on rehabilitation within the modernization of healthcare. Emphasis is placed on the development of practical skills and treatment techniques built on sound theoretical and research base. Department of Physiotherapy was incepted in the year 1993 under Vel's College of Physiotherapy and now has been brought under University.
