## About the School

VISTAS, which is popularly known as Vels University offers courses in multi-disciplines and felt lacunae of not having courses in **Law**. Hence, Vels has launched the Vels School of Law with the approval of Bar Council of India.

Law is a vital component in the successful integration of people which affects every stage of our lives and reaches into every part of life. For that very reason law is extraordinarily important to the way of life, of any people. Knowledge in law will equip the individuals with intellectual skills which will give a decisive advantage in whichever profession one chooses. Law is a subject where one can develop a range of skills and explore many aspects of human life. Studying Law helps to develop abstract thinking, logical reasoning and practical problem-solving.

Through analysis of case studies and other work on our course, students will become highly skilled and also develop very strong oral and written communications skills needed in many professions. Mooting and other legal skills competitions provide the opportunity to experience what it is like to be a lawyer. Students learn the foundation legal skills, then use and explore to develop their proficiency and competence.
